WORK EXPERIENCE

Software Engineer
Incture 

July 2025 – Present
Bhubaneswar

- Led technical feasibility studies and provided accurate effort estimations for new requirements, ensuring realistic timelines for planning and delivery.
- Architected scalable frontend modules using React.js and SAPUI5, ensuring high performance and maintainability across complex enterprise applications.
- Optimized application performance and user experience, resulting in faster load times and improved data handling for large datasets.

Associate Software Engineer
Incture 

July 2023 – June 2025
Bhubaneswar, India

- Developed robust and intuitive UI solutions for enterprise applications catering to client-specific requirements.
- Worked with SAP Fiori, OData, and SAP BTP to create seamless integrations with backend systems.
- Contributed to innovative POCs and product development to enhance business solutions.

Technical Intern
Incture 

January 2023 – June 2023
Bhubaneswar

- Underwent structured training in SAPUI5, ReactJS, JavaScript, and SAP UI5, with regular assessments and hands-on assignments to validate learning.
- Developed and maintained responsive UI components using SAPUI5 and ReactJS, integrated with OData and RESTful APIs, and aligned with SAP Fiori design guidelines.
- Collaborated with mentors and team members to debug issues, improve UI performance, and deliver features in an Agile environment.

EDUCATION

Bachelor of Technology
Odisha University of Technology and Research(formerly College of Engineering and Technology) 

2019 – 2023
Bhubaneswar, India

CGPA: 9.42

SKILLS

Web & Application Development
JavaScript, ReactJS, SAPUI5, NodeJS, SAP CAPM, MongoDB, HTML, CSS, TypeScript, Bootstrap, Tailwind, jQuery, Material UI

Programming Languages
C, C++

Version Control
Git

Cloud & Development Platforms
SAP BTP, SAP Launchpad, Firebase

PROJECTS

Price Card Generation
Tech Stack: SAPUI5, CAPM-NodeJS, SAP BTP

May 2024 – March 2025

- Built an enterprise application for a Singapore-based retail chain to generate promotional price cards.
- Implemented dynamic UI logic and automated workflows to simplify offer creation.
- Ensured seamless integration with backend services built in CAPM and deployed in SAP BTP.
- Improved usability through intuitive layouts and optimized rendering for complex datasets.

Journal Entry Automation
Tech Stack: ReactJS, Java, SAP Workflow, ABAP

October 2023 – November 2025

- Built application for a US based chemical company to automate journal entry posting in SAP environment.
- Replaced manual SAP journal entry processes with a structured, error-resistant workflow.
- Implemented validation rules, UI enhancements, and automated posting sequences.
- Collaborated with functional and testing teams to ensure compliance with business logic.

Intelligent Operation Platform
Tech Stack: SAPUI5, Java, CPI, IOS Swift

April 2025 – Present

- Contributed to a logistics automation platform used by a US-Canada oil company.
- Designed responsive components for monitoring production, alarms, and downtimes.
- Improved navigation flows and data presentation for faster user decision-making.
- Worked closely with backend teams to handle real-time data updates effectively.

EXTRACURRICULAR ACHIEVEMENTS

Google Cloud Facilitator Program
Completed all the 30 quests and 45 skill badges within two months of the program.

April 2021 – June 2021

Hactoberfest 2020
I successfully made 5 pull requests with 5 different organizations(GitHub repository) and received schwags.

October 2020
